

Product Introduction

This US standard smart socket matches the material and design style of the existing switch series, providing a cohesive look throughout your home. Its key highlight is the remote on/off control through the mobile APP, allowing you to manage power from anywhere. The timer function also enables you to preset usage times for appliances, promoting energy efficiency.

Features

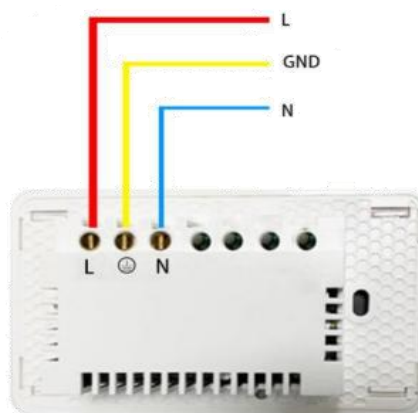

- Advanced touch sensing technology
- Available in black/white, consistent with the style of the existing switch series
- Wide voltage design, suitable for a wide range of applications
- Standard US specification
- Supports Belahome APP and HyPanel control

Specification

- Product Model: TYSH-US01
- Input Voltage: 100 ~ 250VAC, 50/60Hz
- Communication Method: ZigBee 3.0
- Maximum Current: Max 10A
- Load Limit: Max 2200W
- Color: White/Black
- Operating Temperature: -20 ~ 45°C
- Operating Humidity: 0 ~ 90%RH (non-condensing)
- Product Dimensions: 72×120×33.5 (mm)

Wiring Diagram

Networking method

1. Connect the power cord correctly according to the wiring diagram and power on the device;
2. Press and hold any button for about 10 seconds until the device indicator flashes rapidly, indicating it has entered the pairing mode;
3. Add the device to the network through the gateway device.
