## Product Introduction

This smart socket uses the standard ZigBee protocol for seamlessly integration with smart home gateways, enabling collaboration with various devices to create a personalized smart home ecosystem. With remote control and timer features, it offers efficient energy management for convenient smart living.

Features

- **Timer function**

- **Broad-range voltage design, encompassing a wide spectrum of applications.**

- **Standard US specification**

- **Low power consumption design with safety protection features**

- **Supports Belahome APP and HyPanel control**

Specification

- Product Model: SM-PW735-UZ

- Input Voltage: 110 ~ 240VAC, 50/60Hz

- Maximum Current: 10A

- Indicator Light: Blue light flashing quickly indicates standby for network pairing, red indicates power on

- Communication Mode: ZigBee 3.0

- Load Limit: 1800W

- Housing Material: PC+ABS (fireproof)

- Operating Temperature: -30 ~ 70°C

- Operating Humidity: 0 ~ 95%RH(non-condensing)

- Product Dimensions: 69.9×39.8×31.4mm

- Certification: UL, FCC

Networking method

1. Insert the device into the socket and power it on;
2. Press and hold the switch button for about 10 seconds, the device's indicator light will flash rapidly, indicating it has entered the network pairing mode;
3. Add the device to the network through a gateway device.
